

Overview of functions on the graduation path

From Mentoring to recommendation:

Who can I choose? Who do I need to exclude?

Function	Who can realize requests?	Exclusion criteria
Mentoring	all graduates/instructors	recommending instructor endorsing instructor member of Graduation Committee (GC)
Endorsing graduation	all graduates/instructors	instructors who will write a first or second recommendation member of the GC
1st or 2nd recommendation	all instructors including those who have already given a recommendation for the certificate or diploma	endorsing instructor instructor who was the mentor
1st and 2nd recommendation: person of the instructor	diversity of personalities of instructors are more important than differences in biological gender	none for pragmatic reasons (e.g.: two women or two men are accepted)
1st and 2nd recommendation: region of the instructor	the recommendations of the instructors must come from another Globe: different perspectives versus networks!	identical context or system
